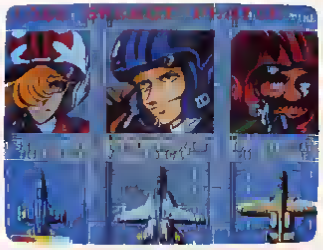
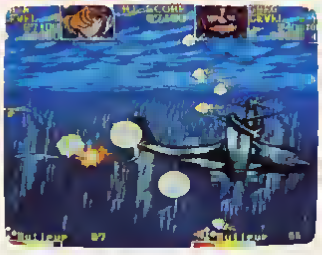
U.N. SQUADRON

# U.N. SQUADRON™





For many years, the countries of the Middle East have been torn by violent civil war and conflict. While the rest of the world cries for an end to the bloodshed, there are those who want only to profit from the pain of others. These corrupt and powerful arms dealers have joined forces to develop revolutionary new weapons, spreading terror across the globe and shattering all hopes for world peace.

The only obstacle between them and their sinister goal is U.N. SQUADRON, a multinational peace-keeping force flying the latest aerial firepower. But will these courageous fighters be able to save the world from total destruction?

U.N. SQUADRON is a two-player interactive video game using Capcom's new CPS super chip. Players find themselves facing tremendous odds against impregnable fortresses, mobile ground-based aircraft carriers, and even the top-secret B2 Stealth Bomber! The skies will be full of action and your cashbox full of quarters with this horizontal conversion kit.

*Featuring Capcom's exclusive Computer-Aided Difficulty Adjustment, which automatically adjusts to each player's skill level! Ask your representative for details.*
